

The Specifications of EV02 (2 doors)

Model		Rated Passengers:2	
Basic Parameter			
Body	Unifame, metal	Dimension (mm)	2893x1554x1512 mm
Wheelbase (mm)	1886 mm	Track Width (mm)	1300/1322 mm
Drive type	Rear wheel driving	Braking sstem	Front Disc, Rear Drum brake
Mi.ground clearance	150mm (full loaded)	Next weight	435 kg(without battery)
Max speed	45 km/h (4 KW motor)	Max climbing capability	20%
Min turning diameter	5m	Braking distance	5m
Running distance	120 km	Charging time	<8h
Parking brake	Hand brake for real wheel	Speed control	Pedal control / automatic transmission
Power Specification			
Electric system	12V DC 12V	Motor	4Kw motor
Controller	48V	Charger	48V/20A (110V/220V input according different market)
Battery	6V*200Ah*8 PCS Gel battery	Battery type	Lead-acid free maintenance battery
