

MOTO SOLAR ELECTRIC L-2016

Name	Solar Electric Motor L-2016
Motor	1000 Watts brushless DC hub motor
Battery	60 / 20Ah
Maximum speed	45km / h
Load Range:	30-40Km
Load Capacity	150kg
Degree of Ascent	25°
Tire size:	120 / 90-10
Shock absorbers:	Two Front Premium Front Shock Absorbers
Brakes:	Disc brakes (front and rear)
Board:	Shows Voltage, Speedometer, Battery Meter and Battery Indicator. Lighting system
Lights:	Front and rear headlights, brake light, turn signals, wheel
Charge Time:	6-8 hours, depending on usage.
Voltage load:	AC110-240V / 50-60Hz
Other:	Stainless steel wheels, LED displayer
